

Henil Patel

Web Developer

Objective:

A fresher web developer with a passion for creating innovative and user-friendly websites. Seeking a challenging position in a dynamic organization where I can utilize my skills and contribute to the growth of the company.

Skills:

- Programming Languages: JavaScript, Java (Basic), Python (Basic)
- Front-end Development: HTML | CSS | Tailwind CSS | React | NextJS
- Back-end Development: Node Js | MongoDB
- Others Skills: Git | GitHub

Projects:

-Real-time-Web-chat app:-

Developed a real-time chat application utilizing modern web technologies. The frontend is built with React.js and styled using Tailwind CSS, providing a responsive and visually appealing user interface. On the backend, the application is powered by Express.js and Node.js, ensuring efficient and scalable server-side operations. Real-time communication is facilitated by Socket.io, allowing users to send and receive messages instantly. Data is stored in a MongoDB database, which ensures robust and flexible data management. Additionally, Cloudinary is integrated for seamless image uploads and management, enhancing the user experience with rich media content.

-Electronics-E-Hub (Ongoing):-

Developing a comprehensive online platform for an electronic store using NextJS, TailwindCSS, NodeJS, ExpressJS, and MongoDB. The platform serves as a one-stop destination for customers to purchase a wide range of electronic items from the comfort of their homes.
